

Join the Hub Rural team

Is this you?

Do you want to work with some of the most progressive land / agri. / food businesses in the UK?

Would you like closer relationships with fewer clients, across successive generations?

Are you frustrated by policy, procedure & progression where you are?

Do you want to earn more than your peers, in a team where you will be both seen, and heard?

Are you in a department 'silo' that restricts what you can do for clients?

This is us; we are -

Property and business consultancy providers in the east & central areas of the UK.

Focused on complex and scale entities with rural assets at their core.

Often embedded within client businesses.

A close & focused team where we all do everything.

Growing rapidly.

Paperless and cloud based.

Users of IT to systemise the repetitive 'stuff' whenever possible.

Rarely seen in tweed!

We need people - [in order of importance]

Who have farming, and property or business consultancy experience.

With the right work ethic and common sense, that are happy to get stuck in.

That ask, hear, and challenge, then implement and complete.

Who are tenacious, resilient, and approachable.

That have no fear of IT in all its uses.

With relevant qualifications.
